Crop-Hail Insurance

Crop-Hail Insurance gives you supplemental, acre-by-acre protection from financial loss due to damaged or destroyed crops. It provides protection to the insured crop up to the actual cash value from direct loss due to hail or other named perils. Hudson Crop also offers a variety of deductible and endorsement options to meet your risk management needs, which includes coverage for fire department service charges, transit coverage to the first place of storage, and replanting coverage (varies by crop).

What Is Right For Me?

Our Crop-Hail coverage provides protection you can count on. With flexible deductibles and several options available, you have the ability to customize your coverage. You decide what protection provides the best fit for your farming operation and what meets your individual risk management needs.

When Is The Best Time To Buy?

The best time to purchase crop-hail insurance coverage is before you plant your crops. Your crop-hail insurance premium is the same regardless of when you buy. Buying early ensures coverage is available during those early season hail storms.

Loss Payment Example

Damage: Direct Loss of Production due to hail Coverage Details: \$350 of coverage per acre

Acres Insured: 100

Deductible: No deductible policy Limit of Insurance: \$35,000 Loss Percentage: 20%

\$35,000 Limit of Insurance x 20% Loss = \$7,000 Indemnity Payment

Note: Policy provisions supersede information noted above. The example is provided for illustrative purposes only.
